Mr. Solorio,

As a concerned citizen(s), I **strongly oppose** a **(1)** MHPA Boundary Line Adjustment, **(2)** Community Plan Amendment of Open Space, **(3)** Rezone of (RS-1-8) residential zoning to industrial zoning within the East Elliot Community Plan area, and **(4)** Revision of the City's Multi-Species Conservation Program (MSCP) Subarea Plan, all of which actions are intended to facilitate the siting of a Power Plant.

An Open Space is a precious resource that should not be frittered away to developers, particularly not for heavy industry such as a power plant, which will threaten the wildlife and ecology of MTRP and the population of surrounding urban communities. This projected power plant is less than a half-mile from West Hills High School. Over 1000 children will spend 6+ hours a day there breathing in the harmful emissions of the toxins that this power plant will spit out. Proven studies show that these emissions will cause cancer. Think about it first please! Put yourself, your children, in our shoes. ☹

Additionally, I respectfully request the CEC to consider the “**No Project Alternative**” for Docket #11-AFC-03 Quail Brush Generation Project Power Plant Licensing Case.

**Respectfully,
Lisa Worthen**
