To Whom It May Concern,

"The mission of the San Diego River Coalition is to preserve and enhance the San Diego River, its watershed, and its natural, cultural and recreational resources. Locating an industrial power plant at the proposed location within the Mission Trails Design District of East Elliot would contradict and be incompatible with the mission, vision and principles of the San Diego River Coalition. Therefore, we urge you to oppose changes to 'laws, ordinances, standards and regulations'(LORS) needed to site the 'Quail Brush Power Plant' within the Mission Trails Design District of East Elliot and upon a parcel one-half-mile from the San Diego River."
