

Public Comment regarding the proposed Quail Brush Generation Project

I would like to make the following written comment. I understand that my comments will be docketed and may be posted on the Energy Commission's website and be available to the public.

Twenty-five ago I moved to the city of Santa because it was like city living in the country without a lot of pollution from industrial plants. Putting this plant next to our city will pollute our country living clean air and also an eyesore that does not belong next to a wildlife preserve. I definitely oppose this power plant and also I hope you listen to all the concerned citizens and groups that also oppose it. Please save Mission Trails
