

## Public Comment regarding the proposed Quail Brush Generation Project

I would like to make the following written comment. I understand that my comments will be docketed and may be posted on the Energy Commission's website and be available to the public.

As a Registered Civil Engineer, I believe this project violates the Holding Order & the Applicant has still not established a credible "need" for this project.

I also understand that these peaker plants will be overbuilt if they continue to be ~~approved~~.

The City of SD & Santee do NOT want this project.

The CEC would better serve the citizens of CA by supporting renewable energy (NOT fossil fuel plants which include natural gas) like solar, geothermal & wind instead

of backing utility conglomerates like Sempra Energy/SDG&E who continue to bully their way into our County &

PRINT NAME Joson Feathers, P.E. DATE: Oct. 3, 2012

using their money to ~~strongly~~ influence the decision makers. This project needs to be denied!
