Subject: CEC record-Docket #11-AFC-03 Quail Brush Power Generation Siting Case

Dear CDC,

It is time for the Quail Brush Generation project to be forgotten. It would be destroying valued open space and putting more than one precious, already endangered, specie at further risk. It is obvious that the city and all those living in it are opposed to this undesirable and unnecessary land use. This is not the direction we need to be taking with our power concerns, it is the opposite. There is no better time to be looking towards alternative energy plans, and this is not one of them.

Please, stop this project by choosing the "No Project Alternative" and to uphold the City of San Diego LORS.
