**Subject:** CEC record - Docket #11 - AFC - 03 Quail Brush Power Generation Siting Case

9/19/12

Sarah Solis  
Meadow Terrace Drive, Santee 92071

We, as residents of Santee, reject any entity to site a power plant in the East Elliott area north of Hwy. 52 for the following reasons:

We will be adversely impacted by fire danger, air pollution, noise, decreased property values, and visual blight. The QBGP siting threatens the health, recreation, natural beauty, quiet, and quality of life of all San Diego County residents who use Mission Trails Regional Park (MTRP) and those who live, work, and go to school in the adjacent communities.

The proposed QBGP is not compatible with many of the City of San Diego's laws, ordinances, regulations, and standards (LORS):

- 1) The East Elliott Community Plan appropriately and correctly sets aside the area as Park, Open Space, and Recreation.
- 2) The Municipal Code designates the site as single-family residential (RS-1-8).
- 3) The City's Multi-Species Conservation Program (MSCP) Subarea Plan is not congruent with industrial zoning.
- 4) The Mission Trails Design District identifies the area for natural habitat preservation and trail expansion. It is an important wildlife corridor.

As California state and local taxpayers, we object to any further spending of taxpayer

dollars in pursuit of a project that violates these consequential local land use provisions.

MTRP is one of the most popular parks in San Diego County. Its unparalleled scenic

views, camping, fishing, Native American historical sites, equestrian area, hiking/biking

trails, and the San Diego River watershed would be within yards of the conflicting natural

gas power plant.

We urge the CEC to implement the NO PROJECT ALTERNATIVE while considering conservation and energy storage. Mission Trails is one of the most lush and green places in San Diego County, and it should remain that way.

Thank you for your time.

Sincerely,

Sarah Solis

Santee, CA.
