

## East County CRA & Greater Santee CRA

### Quail Brush Power Plant

Where as, the proposed location of the Cogentrix power plant is next to Mission Trails Park, close to schools, and residences which will result in poor air quality and noise pollution,

Where as, the local elected and community leaders, including Assemblyman Brian Jones, Supervisor Diane Jacob, Santee Mayor & City Council, La Mesa City Councilwoman Ruth Sterling, Santee School Board and mayoral candidate Bob Filner oppose this plant,

Where as, the San Diego City Planning Commission refused to begin the process for a necessary zoning change from open space to industrial,

Where as, Cogentrix must be convinced that if there is a need for more power, their efforts would be better realized by placing the plant in an industrial area where it belongs,

Therefore be it resolved, that the East County CRA and the Greater Santee CRA oppose the Quail Brush Power Plant and urge the San Diego City Council to uphold the will of the people and for the sake and safety of the community, by denying the appeal by Cogentrix for a zoning change and take a firm stand against the Quail Brush Power Plant, on this day of September 19, 2012.
