Subject: Docket Number: 11-AFC-03 Quail Brush Project

California Energy Commission

DOCKETED

11-AFC-3

TN # 69256

JAN 24 2013

To: CEC and CPUC:

My most recent monthly statement from SDG & E contained this message:

PROPOSITION 65 WARNING

As a result of Proposition 65, the State of California lists substances known to cause cancer or reproductive harm. We want you to be aware of the following so you can minimize exposure to substances on the state's list related to natural gas and electricity distribution.

WARNING: Natural gas and some materials used by San Diego Gas & Electric® at its facilities and work areas contain substances known to the State of California to cause cancer or reproductive harm.

NATURAL GAS

In its original state, natural gas contains substances on the state's list of substances known to cause cancer or reproductive harm. To reduce exposure, leave the area of the gas leak and call us immediately at 1-800-411-7343.

NATURAL GAS COMBUSTION

All combustion, including the combustion of natural gas, produces substances on the state's list of substances known to cause cancer or reproductive harm.

FACILITIES AND WORK SITES

Some materials found at our facilities and work sites contain substances on the state's list of substances known to cause cancer or reproductive harm. We handle all materials carefully for your good health as well as ours; however, exposure to substances on the state's list may occur at these locations.

For more information, visit the state's Proposition 65 website at <http://oehha.ca.gov/prop65.html> or write to us at:

Environmental Services

San Diego Gas & Electric

8315 Century Park Court, CP21L

San Diego, CA 92123-1550

Since this is the case, why Is SDG & E and their cohorts still pursuing a natural gas facility in San Diego, or anywhere else for that matter?

Sincerely,

Judi Ravetti

San Diego
