APPLICANT’S STATUS REPORT

The following discussion summarizes the status of the Rio Mesa Solar Electric Generating Facility (“RMS SEGF”) Application for Certification [11-AFC-04] proceeding since the suspension of the project on January 17, 2013.

Applicant continues to review the project and results of previously performed studies to determine a course of action that would allow for the project to reinstate permitting activities.

Applicant withdrew the projects Interconnection Request (IR) from the California ISO. If permitting were to be reinstated, the applicant would determine an alternate path to provide for transmission deliverability.
