Subject: HBEP Cultural Resource Questions

Felicia,

Here are my remaining questions concerning HBEP. They all center around the issue of depth of excavation and fill on the project site.

1. The applicant's response to Data Request (DR) 36 does not include the following.
 - a. Depth of excavation proposed for the relocated gas metering station.
 - b. Depth of excavation for bare conductors and ground rods.
 - c. Depth of excavation for the ammonia tank.
 - d. Depth of excavation for the spill containment basin.
 - e. Depth of excavation for the refilling station.

Thanks,

Gabriel
