PROJECT TITLE: Avenal Energy

<input checked="" type="checkbox"/> Telephone	805-528-6868	<input type="checkbox"/> Meeting Location:	
NAME:	Joe Stenger	DATE:	5/9/2008 and 5/12/2008
WITH:	TRC Solutions		
SUBJECT:	Avenal Energy AFC Socioeconomics Questions		

COMMENTS:

Joe Stenger of TRC Solutions and project manager for Avenal Energy reported and staff agreed:

- AFC Socioeconomics page 6.10-21, paragraph 4, line 10 should have one instead of two and line 11, 1.38 instead of 0.38.
- AFC Socioeconomics page 6.10-22, paragraph 1, line 3 should have \$731 million instead of \$100 million.
- AFC Socioeconomics page 6.10-25, paragraph 1, line 10 should have \$153 million instead of \$94 million.

For Report of Conversation (ROC) TN: 4190-Responses to Socioeconomics questions- According to Joe Stenger, the last question discussing economic multiplier modeling incorporated Kings, Fresno, and Kern counties (three counties) based on the location of the project in Kings County, and its proximity to Fresno and Kern Counties as major sources of materials and labor refers to both the construction and operation phases of the Avenal Energy Project.
