Blythe, CA 92225

SUBJECT: GSEP, 09-AFC-8C
Approval of requested modification to store a spare auxiliary transformer on site

Dear Ms. Mosley:

In accordance with the provisions of Title 20, California Code of Regulations, section 1769(a), California Energy Commission (Energy Commission) staff reviewed your petition dated October 28, 2014 requesting to store a spare three-phase 25 MVA auxiliary transformer on the GSEP site for use as a backup to primary equipment.

Staff determined that the petition met the criteria of section 1769(a)(2), and mailed a Notice of Determination to the Energy Commission's post-certification project mailing list on December 12, 2014. Energy Commission staff did not receive any public comments regarding the requested project change within the 14-day public review period as specified in section 1769(a)(2). Therefore, your requested modification to the Genesis Solar Energy Project to store a spare transformer on site is approved.

If you have any questions, please call me at (916) 654-4611, or send an e-mail to me at eric.veerkamp@energy.ca.gov.

Sincerely,

Eric Veerkamp
