Project Title:	Genesis Solar Energy Project
TN #:	204056
Document Title:	Application for Confidential Designation, Genesis Final Paleontological Resources Report
Description:	Confidential filing for Genesis Final Paleontological Resources Report, including the attached Monitoring Report with locations and details
Filer:	Eric Veerkamp
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	4/3/2015 12:57:17 PM
Docketed Date:	4/3/2015

30 November 2010

Jessica DeBusk, Project Manager
SWCA Environmental Consultants
150 South Arroyo Parkway, Second Floor
Pasadena, CA 91105

Dear Ms. DeBusk:

The San Bernardino County Museum (SBCM) is a professional, permanent repository for paleontologic resources collected from private and Federal lands, and is accredited by the American Association of Museums. Additionally, the SBCM upholds professional museum standards and has been recognized by the Federal Government as DM411 compliant as set forth by the Department of the Interior's Departmental Manual. Our institution will accept and professionally curate paleontologic collections and accompanying samples, records, data, maps, photographs, field notes, and other documents derived from paleontologic work conducted by SWCA under your project direction. This repository letter is written specifically for the proposed solar energy project referred to as Genesis Solar Energy Project in the Blythe region of Riverside County, an area administered by the Palm Springs Field Office of the California Bureau of Land Management. This curation letter is written for fossil resources recovered during the monitoring phase of this project. If fossil resources are recovered, SWCA assumes financial responsibility for the curation and is required to contract with the County of San Bernardino prior to curation of the objects in the Museum.

The SBCM further agrees to assume permanent curatorial responsibility for such materials owned by and on behalf of the Federal government (Bureau of Land Management).

Sincerely,

A handwritten signature in black ink that reads "Kathleen Springer". The signature is written in a cursive style with a long horizontal line extending from the end of the name.

Kathleen Springer, Senior Curator
Division of Geological Sciences
San Bernardino County Museum

Paleontological Resources Monitoring Report for the Genesis Solar Energy Project, Riverside County, California

Dear Executive Director,

The attached Paleontological Resources Monitoring Report for the Genesis Solar Energy Project, Riverside County, California is being submitted under confidential cover as set forth in the California Public Records Act, and other applicable law. In summary:

"The California Public Records Act provides for the nondisclosure of archaeological site information and reports. (Gov. Code, sec.6254.10) The Public Records Act also recognizes the confidentiality principles of federal law. (Gov. Code, sec. 6254(k).) The Archaeological Resources Protection Act establishes a clear, national legal policy that all types of archaeological, paleontological resource site locations must be kept confidential in order to preserve them. (16 U.S.C. sec. 470hh.) Non-disclosure of paleontological resources, such as the information submitted in the above-referenced reports, is expressly in the public interest."

Please accept this report under confidential cover. If you have any questions please do not hesitate to contact me.

Respectfully,

Cara Corsetti, M.S.
PRS, Genesis Solar Energy Project

APPLICATION FOR CONFIDENTIAL DESIGNATION

(Title 20 Cal. Code. Regs., § 2505 et seq.)

TO: ENERGY COMMISSION EXECUTIVE DIRECTOR, MS-39

ENERGY COMMISSION CONTRACT/DOCKET NO. (IF APPLICABLE):

COC Compliance-6; 09-AFC-8

Genesis Solar Energy Project; Eastern Riverside County, California

APPLICANT: Cara Corsetti, SWCA Environmental Consultants

ADDRESS: 150 South Arroyo Parkway, 2nd Floor Pasadena CA 91105

- 1(a). Title, date, and description (including number of pages) of the information or data for which you request confidential designation. **Information or data seeking a designation of confidentiality must be included with this application.**

Paleontological Resources Monitoring Report for the Genesis Solar Energy Project, Riverside County, California, May 2014 (293 pages).

- 1(b). Specify the part(s) of the information or data for which you request confidential designation.

We request that the data included in the attached document, specifically the location and findings, be kept confidential in order to preserve them.

2. State and justify the length of time the Energy Commission should keep the information or data confidential.

Due to the sensitive nature of the findings, the information within this document should remain confidential for an indefinite amount of time.

- 3(a). State the provision(s) of the Public Records Act (Gov. Code, § 6250 et seq.) or other law that allows the Energy Commission to keep the information or data confidential, and explain why the provision(s) apply to that material.

The California Public Records Act provides for the nondisclosure of archaeological site information and reports. (Gov. Code, sec. 6254.10) The Public Records Act also recognizes the confidentiality principles of federal law. (Gov. Code, sec. 6254(k).) The Archaeological Resources Protection Act Establishes a clear, national legal policy that all types of archaeological, paleontological resource site locations must be kept confidential in order to preserve them. (16 U.S. C. sec. 470hh.)

- 3(b). Discuss the public interest in nondisclosure of the material submitted for a confidential designation. If the material contains trade secrets or its disclosure would otherwise cause loss of a competitive advantage, please state how it would be lost, the value of the information to the applicant and the ease or difficulty with which the information could be legitimately acquired or duplicated by others.

Non-disclosure of paleontological resources, such as the information submitted in the above-referenced report, is expressly in the public interest.

4. State whether the information or data can be disclosed if it is aggregated with other information or masked to conceal certain portions (including but not limited to the identity of the applicant). State the degree of aggregation or masking required. If the data cannot be disclosed even if aggregated or masked, explain why.

The information in this report should not be disclosed to the general public. Under certain circumstances, the data within this document can be disclosed to a certified paleontologist for research purposes only.

5. State how the material is kept confidential by the applicant and whether it has even been disclosed to a person other than an employee of the applicant. If it has, explain the circumstances under which disclosure occurred.

All sensitive information is kept confidential from the public. Information is provided to the client but only on a need to know basis.

I certify under penalty of perjury that the information contained in this application for confidential designation is true, correct, and complete to the best of my knowledge and that I am authorized to make the application and certification on behalf of the applicant.

Dated: 2/25/2015
