RE: Calico Solar (Formerly Solar One) Project  
Applicant's Submittal of Existing Access Routes in the Project Vicinity and Proposed Access Post  
Project Development

Dear Mr. Meyer and Mr. Stobaugh,

Tessera Solar hereby submits figures showing existing access routes in the Calico Solar Project vicinity and the Applicant's proposed access post project development.

The Applicant understands that references were mistakenly made to Hector Road throughout the permitting process. The publicly-designated Hector Road ends soon after the exit off of Interstate 40, where the road becomes segmented into a BLM-designated open or unspecified area (please see the attached map). The Calico Solar Project will not restrict or change the use of Hector Road as designated by the County of San Bernardino. Upon development of the Calico Solar Project, an access road outside of the Project fence line would provide nearby property owners and other members of the public who currently use open BLM roads in the vicinity access (please see the attached map).

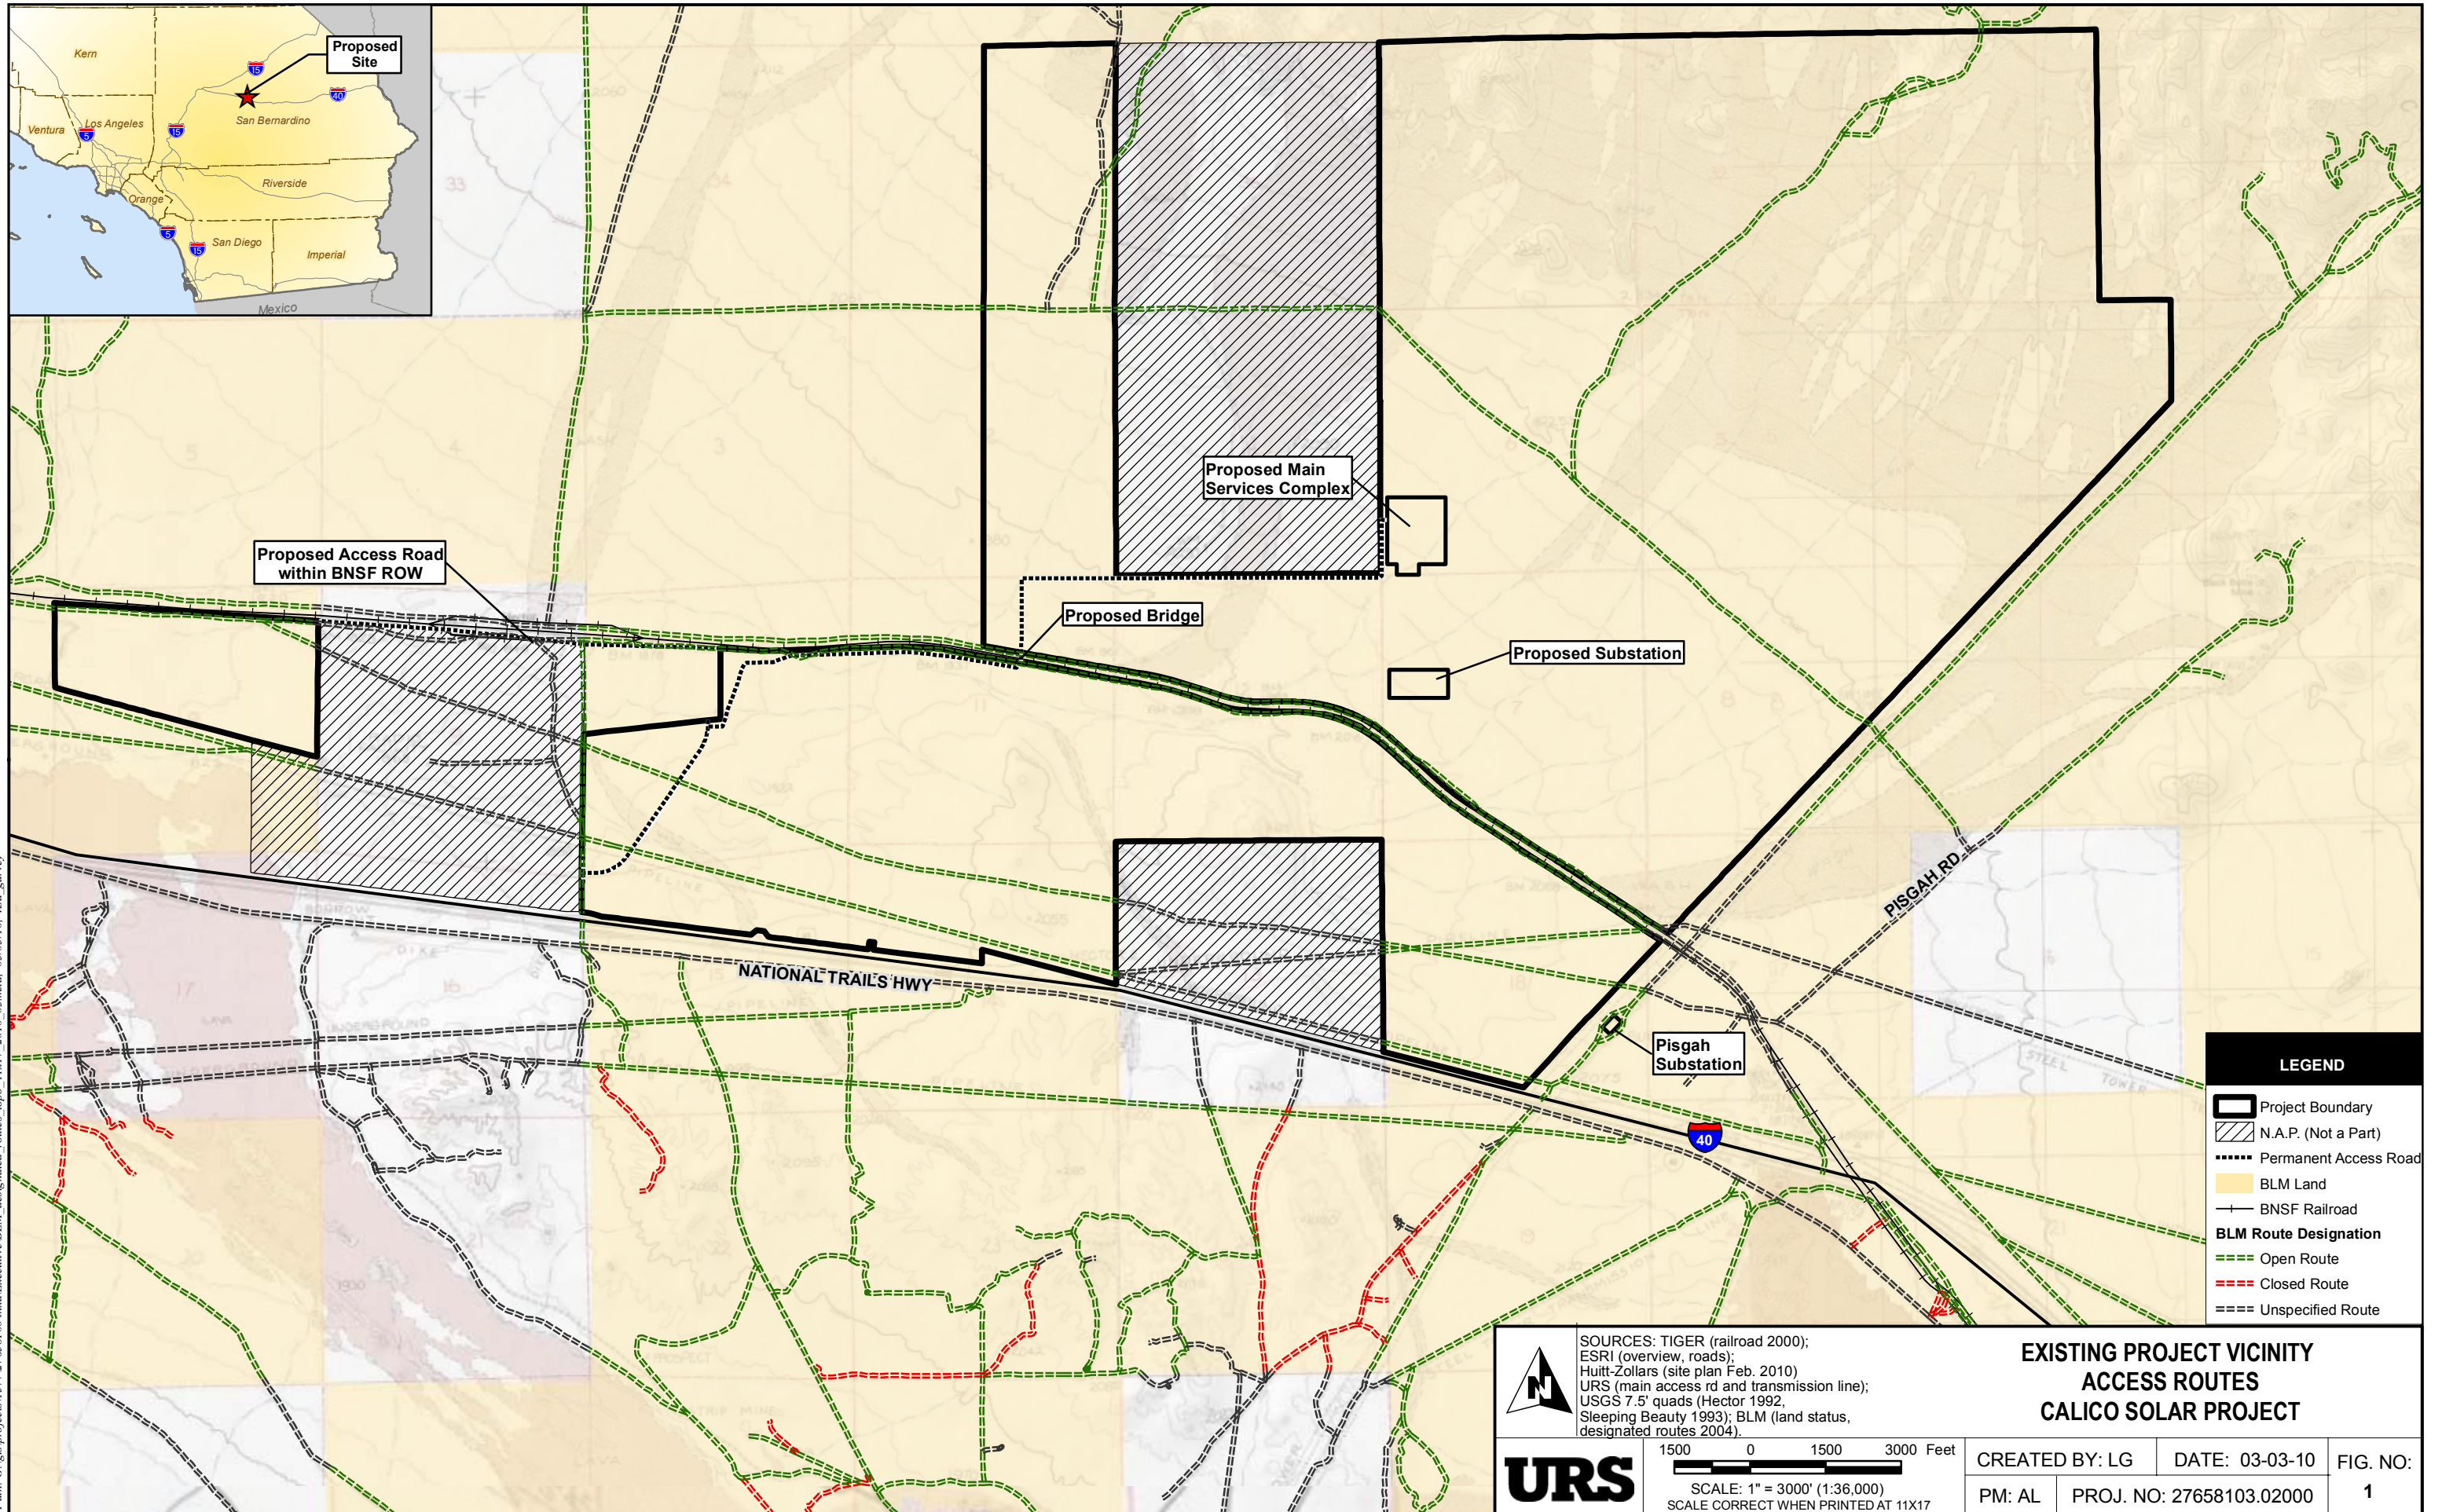

The BLM has informed the Applicant that any use of a road or route, where it is not designated as open road, would require a permit from the BLM. The BLM has no authority to designate motorized access routes on or across private land for which the BLM does not hold an authorization; i.e. easement. There are no known easements held by the BLM in this area. The BLM has not designated routes as open which cross the BNSF ROW in this area. The BNSF maintains the railroad ROW, as granted by Congress, and it is up to the railroads discretion on how the railroad ROW is maintained or accessed.

I certify under penalty of perjury that the foregoing is true, correct, and complete to the best of my knowledge.

Sincerely,

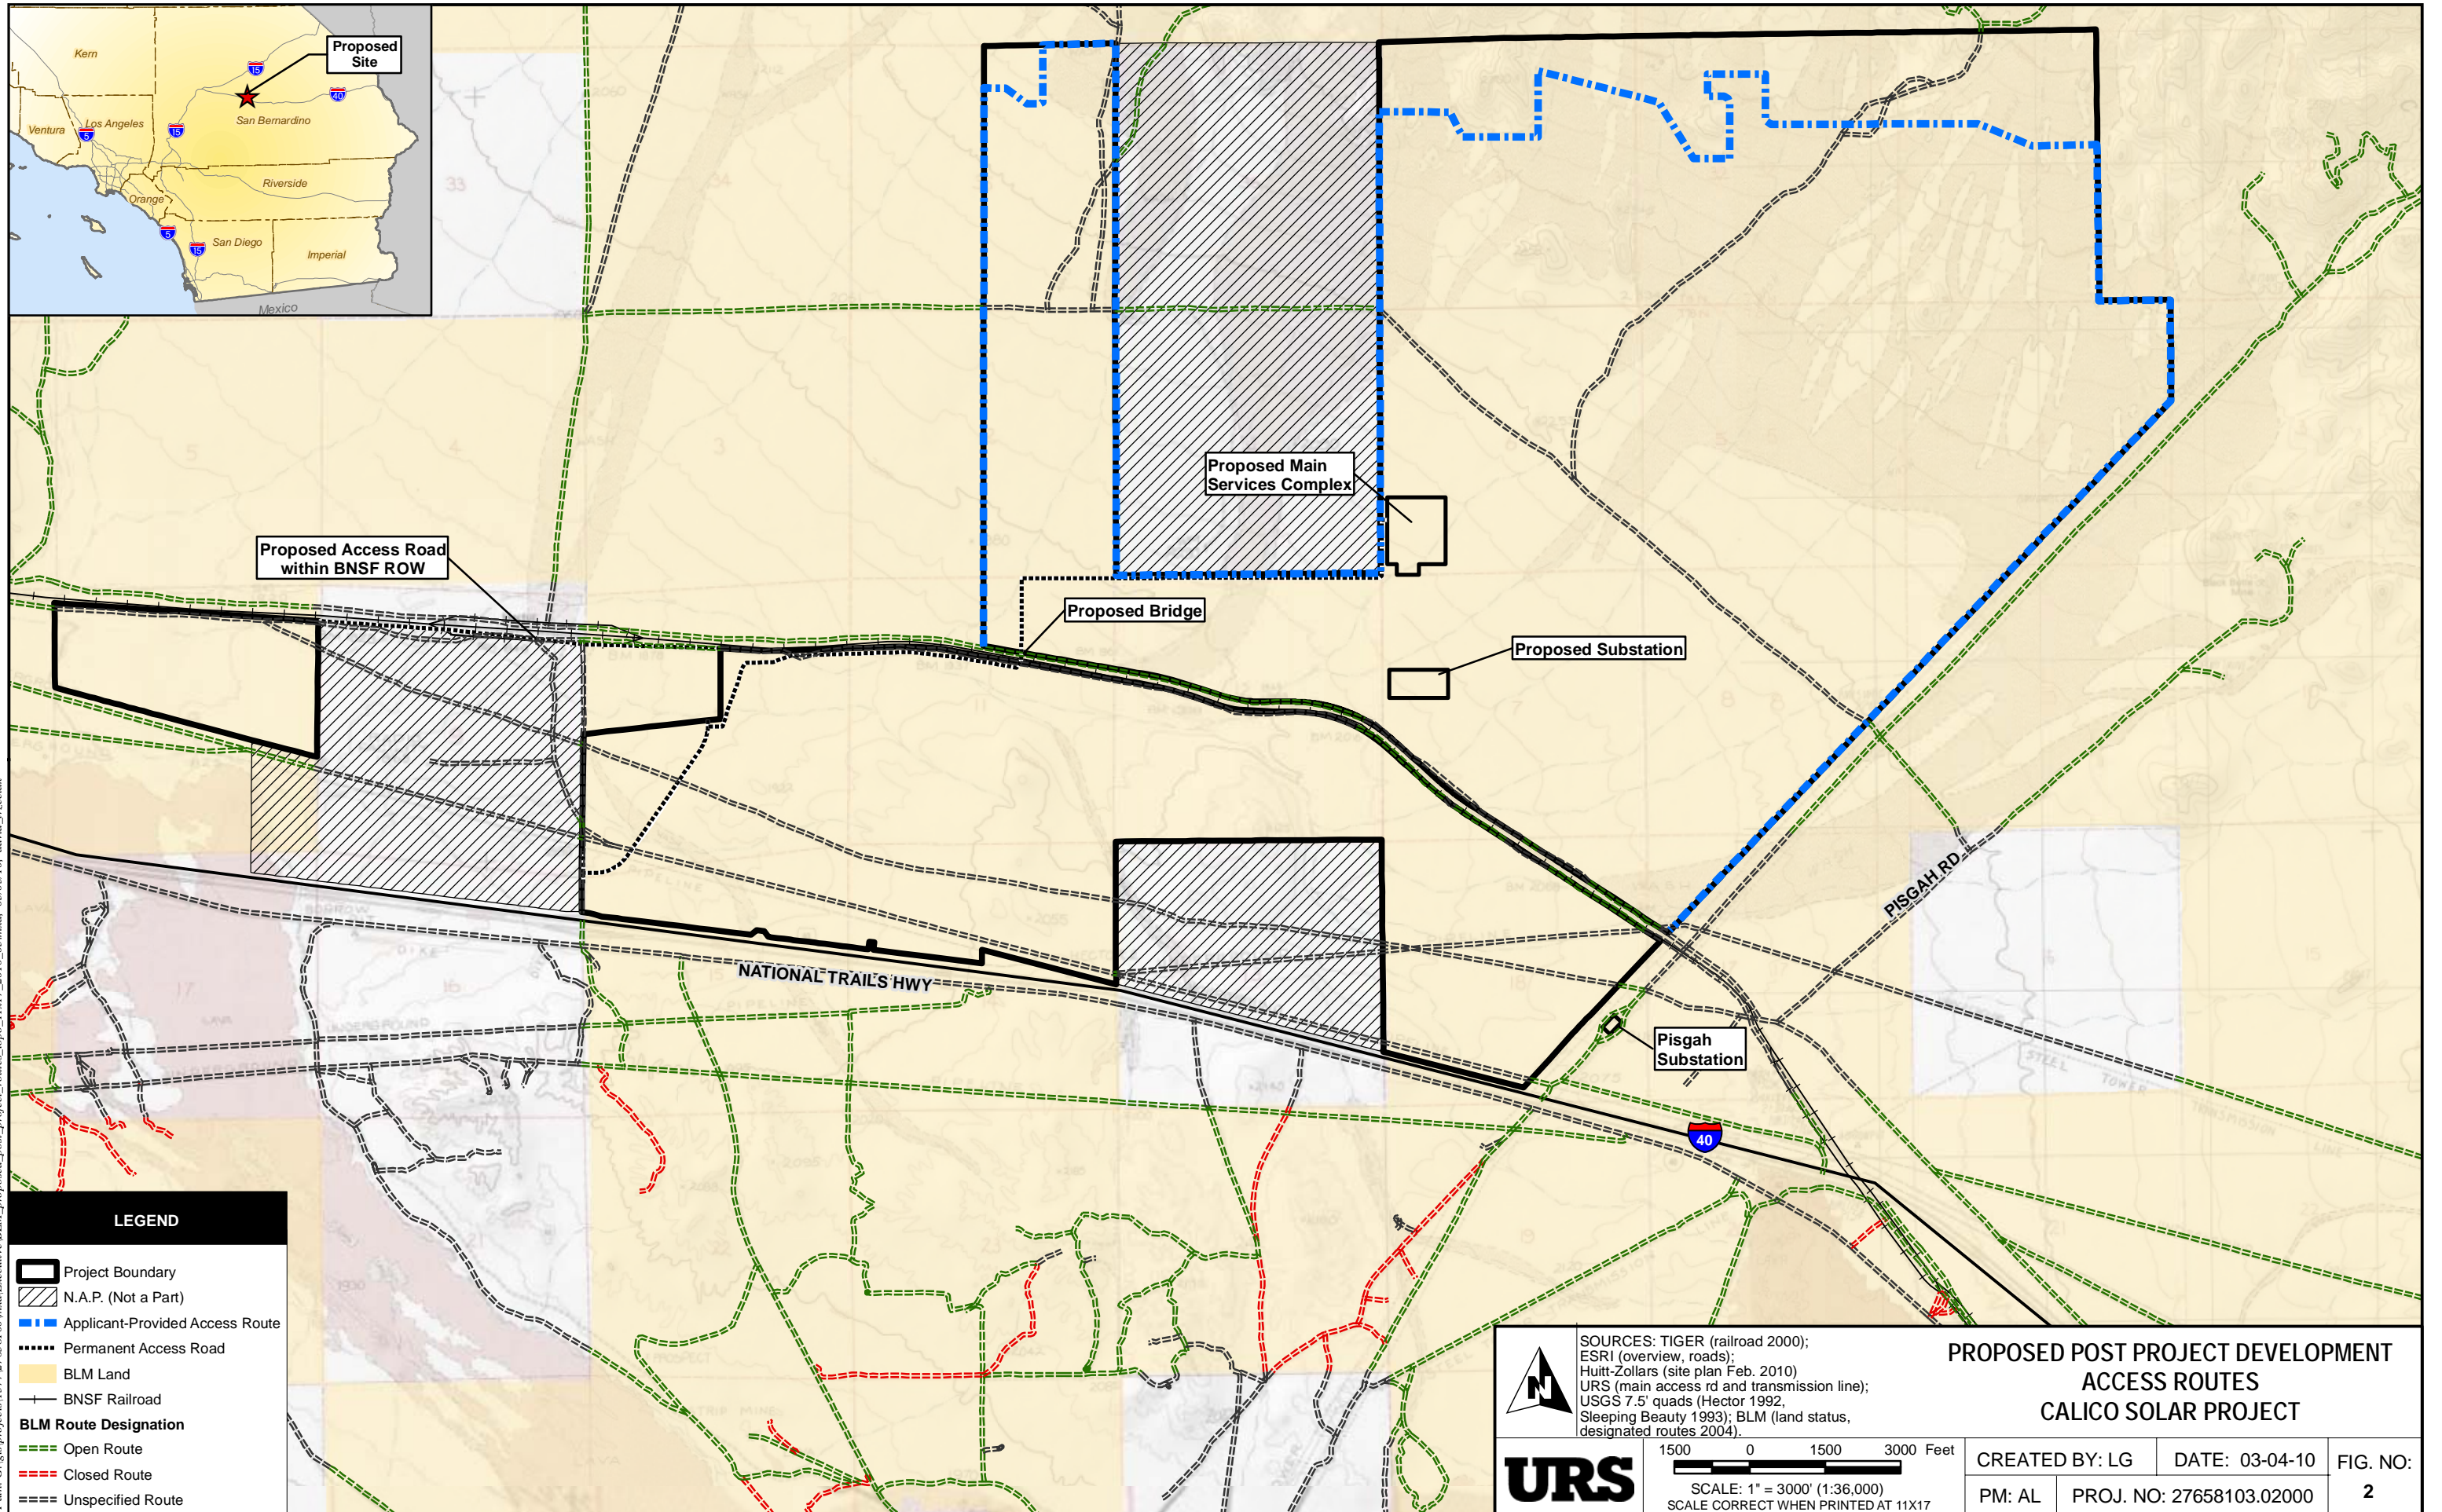

Felicia L. Bellows  
Vice President of Development
