Subject: Beacon Solar Energy Project Raven Monitoring, Management, and Control Plan

Dear Mr. Pfanner:

Enclosed is the Draft Raven Monitoring, Management, and Control Plan for your review. This plan is intended to meet the compliance requirements for raven monitoring and control as defined by the agencies and requested in the CEC Data Request No. 16. The plan is organized into two parts to facilitate approval of the proposed monitoring effort (Part 1) as this is a critical path item in the schedule for collecting baseline information. The second component includes an initial outline with descriptions of the management and control measures (Part 2). These measures will be completed for submittal in a future version; however, the outline and intended content is provided for your initial review and clarification of the bigger picture approach.

Please call me at (916) 474-5698 if you have any questions or comments.

Sincerely,

Michael Argentine
