BEACON SOLAR, LLC'S SUPPLEMENTAL COMMENTS ON THE PRESIDING MEMBER’S PROPOSED DECISION REGARDING CONDITION OF CERTIFICATION BIO-22

Pursuant to the discussion during the Committee Conference on Thursday, August 17, 2010 and direction from the Committee, the parties to Application for Certification for the Beacon Solar Energy Project proceeding met and agreed to the following language for proposed Condition of Certification BIO-22. We are providing both a clean and redline version of BIO-22 below. The redline is against the version of BIO-22 presented in Beacon Solar, LLC’s comments filed and served in this proceeding on August 12, 2010.

**BIO-22** The Project owner may choose to satisfy its mitigation obligations identified in this Decision by paying an in lieu fee instead of acquiring compensation lands, pursuant to Fish and Game code sections 2069 and 2099 or any other applicable in-lieu fee provision, to the extent the Project's in-lieu fee proposal is found by the Commission to be in compliance with CEQA and CESA requirements.

**Verification:** If electing to use this provision, the Project Owner shall notify the Commission and all parties to the proceeding that it would like a determination that the Project’s in-lieu fee proposal meets CEQA and CESA requirements. Prior to construction related ground disturbance the Project Owner shall provide proof of the in lieu fee payment to the CPM.
