Subject: **MARSH LANDING GENERATING STATION (08-AFC-3) STATUS REPORT 4**

Pursuant to the Committee Scheduling Order dated December 31, 2008, the following is staff's Status Report #4 for the proposed Marsh Landing Generating Station (MLGS) Application for Certification (AFC).

Current Activities and Preliminary Staff Assessment

As indicated in Status Reports #2 and #3, nineteen of the twenty-one technical sections of the MLGS Preliminary Staff Assessment (PSA) are predominately complete. However, due to several factors outside the control of staff and the applicant, the Bay Area Air Quality Management District (BAAQMD) is still several weeks (if not months) away from issuing their Preliminary Determination of Compliance (PDOC). As the Committee knows, two key technical sections of the PSA are dependent upon a PDOC for completion, namely Air Quality and Public Health.

Schedule

If staff receives a more definitive time from the BAAQMD regarding release of the PDOC prior to the next scheduled status report, we will propose a revised schedule for the Committee's consideration.
