SUBJECT:	MLGS AFC Amendment-Socioeconomics Information		

COMMENTS:

Anne Connell, project manager for URS, provided the following socioeconomic information relating to the MLGS AFC Amendment:

1. The revised construction cost estimate of \$550 million in 2009 dollars includes linears;
2. School impact fees remain the same since the administrative building's size remains unchanged;
3. Construction benefits are underestimated since direct employment estimates used 80 workers not an average of 117 workers from Revised Table 2.7-1a, Construction Staff by Trade; and
4. The IMPLAN Social Accounting Matrix (SAM) multipliers were used for the economic impact analysis.
