NOTICE OF AVAILABILITY OF THE STAFF ASSESSMENT FOR THE MARSH LANDING GENERATING STATION, APPLICATION FOR CERTIFICATION (08-AFC-3)

This notice is to inform you that the California Energy Commission (Energy Commission) has prepared a Staff Assessment (SA) for the Marsh Landing Generating Station (MLGS) Application for Certification (AFC). Additionally, this notice is to inform you of the availability of the SA, which was published by the Energy Commission on April 26, 2010. The SA contains the Energy Commission's engineering, public health, and environmental evaluation of the proposed Marsh Landing Generating Station.

The SA will serve as CEC staff's testimony during evidentiary hearings held by the Energy Commission. The Energy Commission Committee assigned to the MLGS proceedings will consider and weigh the testimony and or comments and or recommendations of all interested parties, including Energy Commission staff, the applicant, intervenors, public, and other local, state, and federal agencies, before issuing the Presiding Member's Proposed Decision (PMPD) for consideration by the full Energy Commission. The public, intervenors, local, state and federal agencies are encouraged to participate in these hearings. The Energy Commission will issue notices at least ten days prior to any scheduled hearings.

The California Energy Commission encourages public and agency participation in the review of staff's SA. The SA will be available for a 30-day public comment period that will conclude on May 26, 2010. Written comments on the SA should be provided to Mike Monasmith, Senior Project Manager at the address on this letterhead (please add "Mail Slot 15") or by email to mike.monasmith@energy.state.ca.us. Technical or project schedule questions should also be directed to Mike Monasmith at (916) 654-4894, or by email.

SUMMARY OF THE PROPOSED MARSH LANDING GENERATING STATION

The Staff Assessment (SA) contains the California Energy Commission staff's evaluation of the Marsh Landing Generating Station (MLGS). The proposed 760-megawatt (MW) MLGS electric generating plant and related facilities are under the Energy Commission's licensing jurisdiction and cannot be constructed or operated without the Energy Commission's certification. The SA contains analyses similar to those normally contained in an Environmental Impact Report (EIR) required by the California Environmental Quality Act (CEQA). When issuing a license, the Energy Commission is the lead state agency under CEQA, and its process is functionally equivalent to the preparation of an EIR.

The Energy Commission staff has the responsibility to complete an independent assessment of the project's engineering design and its potential effects on the environment, the public's health and safety, and whether the project conforms to all applicable laws, ordinances, regulations and standards (LORS). The staff also recommends measures to mitigate potential significant adverse environmental effects and conditions of certification for construction, operation and eventual closure of the project, if approved by the Energy Commission.

This SA is not the decision document for these proceedings, nor does it contain findings of the Energy Commission related to environmental impacts or the project's compliance with local/state/federal legal requirements. The SA serves as staff's official, sworn testimony in evidentiary hearings to be held by the Committee assigned to this proceeding, comprised of two Commissioners and a Hearing Officer. After evidentiary hearings, the Committee will consider testimony and comments presented by staff, the applicant, other parties to the proceeding, governmental agencies and the public – all aspects that comprise the official record of this proceeding -- and issue a Presiding Member's Proposed Decision (PMPD). Following a public hearing, the full five-member Energy Commission will make its final decision on this power plant application based upon the PMPD, comments by parties to the proceeding and input from members of the public.

PUBLIC PARTICIPATION

Please direct your technical or project schedule questions to Mike Monasmith, Energy Commission Project Manager, at (916) 654-4894, or by e-mail at mike.monasmith@energy.state.ca.us. The status of the proposed project, copies of notices, an electronic version of the AFC, and other relevant documents are also available on the Energy Commission's web site: <http://www.energy.ca.gov/sitingcases/marshlanding>. You can also subscribe to receive e-mail notification of all notices and announcements at: <http://www.energy.ca.gov/listservers>. By being on this email list, you will receive all project-related notices and documents pertaining to the project's evaluation and review. If you have any questions related to the automatic email notification list, please contact Teraja Golston, Project Assistant, at (916) 654-4498, or by email at: tgolston@energy.state.ca.us.
