Ms. Melissa Jones
Executive Director
California Energy Commission
1516 Ninth St.
Sacramento, CA 95814

Dear Ms. Jones,

Mirant Marsh Landing, LLC, an indirect wholly owned subsidiary of Mirant Corporation is pleased to submit the accompanying Application for Certification (AFC) seeking authority to construct and operate the 930 megawatt (MW) natural gas-fired Marsh Landing Generating Station (MLGS).

The MLGS consists of two-275MW quick-start 1x1 combined cycle (Siemens FlexPlant10) units and two-190MW quick-start simple cycle Siemens 5000F gas turbine units. The MLGS will be sited adjacent to the existing Contra Costa Power Plant in unincorporated Contra Costa County, California near the city of Antioch. Brownfield development such as this is an excellent way to utilize existing infrastructure such as natural gas lines and electric transmission lines while preserving greenfield sites for other non-utility development. In addition to utilizing Best Available Control Technology, the project will incorporate LEED® design aspects for new construction.

A letter of support for the MLGS from Mayor Donald P. Freitas of Antioch, CA is included as an appendix in this AFC. We look forward to continuing our long-standing relationship with the City of Antioch and the surrounding local community as we develop the MLGS.

Questions related to this AFC should be directed to Anne Connell of URS Corp. at (415) 243-3892.

This AFC application is submitted in accordance of Title 20, California Code of Regulations, and as an officer of Mirant Marsh Landing, LLC, I hereby attest, under penalty of perjury, that the contents of this application are truthful and accurate to the best of my knowledge.

Regards,

A handwritten signature in black ink, appearing to read "John Chillemi".

John Chillemi
President, Mirant Marsh Landing, LLC
