Mr. Christopher Meyer  
Project Manager  
Attn: Docket No. 08-AFC-5  
California Energy Commission  
1516 Ninth Street  
Sacramento, CA 95814-5512

Subject: SES Solar Two (08-AFC-5)  
Additional Supportive Materials to be Docketed–Biology and Water  
URS Project No. 27657106

Dear Mr. Meyer:

On behalf of SES Solar Two, LLC, URS Corporation Americas (URS) would like to provide a brief update on the Solar Two Project.

As documented in the AFC and POD submissions, the Applicant avoided environmental constraints through Project engineering and design, wherever practicable. Inclusive in this, was the attempt to avoid development within wash areas on the project site. However, during the development of 30% engineering and design plans, it has been determined that impacts to some of these washes are unavoidable.

URS is currently analyzing potential impacts on Biological and Water Resources. This additional information (which will include, but is not limited to, a copy of the California Department of Fish & Game's Streambed Alteration Agreement Application and the Regional Water Quality Control Board's Porter-Cologne Permit Application) is targeted to be docketed at the end of September, 2009.

I certify under penalty of perjury that the foregoing is true, correct, and complete to the best of my knowledge. I also certify that I am authorized to submit this information on behalf of SES Solar Two, LLC.

Sincerely,

Angela Leiba  
Project Manager
