Anne,

I recommend you that work with SJCOG to develop new or make sure the already developed ITMMs (incidental take minimization measures) under the HCP are implemented without additional DFG review. Thanks for checking in. Janice

>>> Anne Wallace <anne@ecobridges.net> 5/6/2009 2:02 PM >>>

Hi Janice:

I just talked to Dan Gifford and he says that this is your region so he's not going to be involved. He also said that his sense is that, with all the money and time spent on HCPs, CDFG shouldn't have to get involved on a project-by-project basis.

If that is your sense and your preference, we will simply work with SJCOG to develop new ITMMs (incidental take minimization measures) under the HCP. If it is your preference to review the project and the ITMMs, I'd be happy to provide you with additional information, to discuss the project more over the phone, and to keep you involved. Either way is fine with me.

Please let me know.

Thanks,
Anne Wallace
