Re: El Segundo Power Redevelopment Project (00-AFC-14C)
Response to Data Request No. 7 - Air Quality Cumulative Assessment

Dear Mr. Munro:

On behalf of El Segundo Power II LLC ("ESP II"), please find enclosed herewith ESP II's response to Staff's Air Quality Data Request No. 7 as each relates to the pending Petition to Amend the El Segundo Power Redevelopment Project's Final Decision. Should you have any questions or require additional information related to this response, please do not hesitate to contact me at (916) 447-0700.

Respectfully submitted,

Kimberly J. Hellwig
Paralegal

Subject: Air Quality Cumulative Impact Analysis
Set One, Data Request No. 7 – Air Quality Cumulative Assessment
Petition to Amend - El Segundo Power Redevelopment Project
Docket # 00-AFC-14C

Dear Mr. Munro:

As part of the cumulative air quality impact analysis for the Petition to Amend El Segundo Power Redevelopment Project (ESPR Project), Sierra Research requested from the South Coast Air Quality Management District (SCAQMD) a list of all new permits and/or permit applications filed over the past two years for facilities that are located within 6 miles of the El Segundo Generating Station. Enclosed, as Attachment 1, is a list from SCAQMD of new/modified permit units as of October 23, 2007. The list shows a total of 1,757 new or modified permit units; Sierra Research has colored coded the list to indicate the type of permit action and whether a net emission increase has been indicated in the respective permit application. Based on their review of this list, Sierra Research found that 287¹ of these permit actions showed a net emissions increase. Of these units, 34² were listed as having a net emission increase greater than the review threshold of 5 tons/year². As a follow-up, Sierra Research contacted the SCAQMD permit group to verify information for those permits (purple shading) indicating a net emission increase of 5 tons/year. Based on additional information obtained from the SCAQMD permit group (see Attachment 2), only the following three permit units resulted in an actual net emission increase greater than 5 tons/year:

- A coking unit located at the Chevron Refinery;
- A heater/furnace located at the Chevron Refinery; and
- A new flare system located at the Chevron Refinery.

The above three permit units owned by Chevron El Segundo Refinery are shown in rows 321, 331, and 334 (florescent green shading) in the attached list (Attachment 1). Because these three units are undergoing a complete review under the SCAQMD new source review program including the installation of Best Available Control Technology and acquisition of emission offsets, we are

¹ Shown in various color shadings depending on type of permit action.

² This cumulative impact review threshold has been used and approved by the CEC previously for the Morro Bay Modernization and Replacement Project and San Joaquin Valley Energy Center Project.

Mr. Stephen D. Munro
Compliance Project Manager
November 30, 2007
Page 2 of 2

concluding that these units will not result in a significant air quality cumulative impact for the proposed ESPR project.

If you have any questions, please do not hesitate to call me at (760) 710-2156.

Sincerely,

El Segundo Power II LLC

George L. Piantka, PE
Regional Environmental Manager

Color Codes:

Application cancelled, rejected, or denied
VOC only or non-criteria pollutant emission source
Administrative type permit processing (ownership change, ERC processing, administrative change to permit, Title V minor permit change, initial Title V application submittal)
Existing equipment that was issued a permit to operate for various reasons (i.e., loss of exemption, NOV for installation/operation without PTC, etc)
Permit processing associated with ESPR Project
Portable equipment permitting
Facility located greater than 6 miles from ESPR Project site
No net increase in emissions or temporary equipment
Emissions < 5 tons/year
No net increase in emissions (via phone conversation with permit engineer)
Net emission increase > 5 tons/year, non-administrative type permit action, and facility located within 6 minutes of ESPR Project site

ATTACHMENT 2

TELEPHONE LOGS FOR DISCUSSIONS WITH SCAQMD PERMIT GROUP

**ESPR Project Air Quality Cumulative Impact Analysis
Telephone Log of Conversations with SCAQMD Permit Engineers**

Permit Application Numbers: 448557

Facility: American Apparel, 12537 Cerise Ave, Hawthorne, CA

Equipment Description: Oven, Fabric (Tenter frame)

SCAQMD Permit Engineer: Richard H Hawrylew

Participants in Telephone Conversation: Candy Tong with Sierra Research and Richard Hawrylew with SCAQMD

Date of Telephone Conversation: 11/8/07

Summary of Telephone Conversation: The referenced permit application is for a change of ownership only. There are no net emission increases associated with the applications.

Permit Application Numbers: 459757, 459756, 459758

Facility: So Cal. Gas, 8141 Gulana Way, Playa Del Rey, CA

Equipment Description: I C E (>500 HP) N-EM STAT GAS

SCAQMD Permit Engineer: Hemang D Desai

Participants in Telephone Conversation: Candy Tong with Sierra Research and Hemang Desai with SCAQMD

Date of Telephone Conversation: 11/9/07

Summary of Telephone Conversation: The referenced permit application is for a modification of an existing unit (replacing the catalysts). There is no net emission increase associated with the application.

Permit Application Numbers: 463989

Facility: Chevron Products, 324 W. El Segundo Blvd, El Segundo Blvd, CA

Equipment Description: Alteration, Fluid catalytic cracking equipment

SCAQMD Permit Engineer: Jeff Cox

Participants in Telephone Conversation: Candy Tong with Sierra Research and Jeff Cox with SCAQMD

Date of Telephone Conversation: 11/9/07

Summary of Telephone Conversation: The referenced permit application is for a modification of an existing unit (replacing the catalytic system). There will be a reduced emission of NOx and no net emission increase associated with the application.

Permit Application Numbers: 454221

Facility: Chevron Products, 324 W. El Segundo Blvd, El Segundo Blvd, CA

Equipment Description: Alteration, Fluid catalytic cracking equipment

SCAQMD Permit Engineer: Robert Sanford

Participants in Telephone Conversation: Candy Tong with Sierra Research and Robert Sanford with SCAQMD

Date of Telephone Conversation: 11/9/07

Summary of Telephone Conversation: The referenced permit application is for replacement of an existing unit with a new functionally identical unit (oxygen enrichment system). There will be no net emission increase associated with the application.

Permit Application Numbers: 448244

Facility: Chevron Products, 324 W. El Segundo Blvd, El Segundo Blvd, CA

Equipment Description: Alteration, DELAYED COKING UNIT

SCAQMD Permit Engineer: Robert Sanford

Participants in Telephone Conversation: Candy Tong with Sierra Research and Robert Sanford with SCAQMD

Date of Telephone Conversation: 11/9/07

Summary of Telephone Conversation: The referenced permit application is for modification of an existing unit. There will be net emission increases in VOC and PM₁₀ associated with the application.

Permit Application Numbers: 445712, 445711, 445713, 445714, 445715, 445717, 445718, 445719, 445730, 445731, 445732, 445733, 445734, 445735

Facility: Chevron Products, 324 W. El Segundo Blvd, El Segundo Blvd, CA

Equipment Description: Change of conditions, Heater/Furnace (5-20 MMBTU/HR) proc gas, Heater/Furnace (> 20-50 MMBTU/HR) proc gas, Heater/Furnace (>50 MMBTU/HR) proc gas

SCAQMD Permit Engineer: Johnny Pan

Participants in Telephone Conversation: Candy Tong with Sierra Research and Johnny Pan with SCAQMD

Date of Telephone Conversation: 11/9/07

Summary of Telephone Conversation: The referenced permit applications are for existing heaters/furnace units. The change in conditions involves limiting the sulfur content of the fuel. There will be no net emission increases associated with the applications.
