## **Quail Brush Power Plant AFC (11-AFC-03) - Please deny suspension**

Power Plant by Mission Trails - Just Say No!

Dear Commissioners:

I use Mission Trails Regional Park regularly for recreation and enjoyment and for teaching outdoor skills, respect for the environment and Leave No Trace principles to young girl scouts and adults. This area is truly a treasure in the heart of our county and should be treated as such. I am a concerned citizen very opposed to an additional year suspension for the Quail Brush Generation Project 11-AFC-03 in the East Elliott Planning Area

Please deny this suspension. Furthermore, I respectfully request that the application be vacated.

A fossil fuel power plant is completely inappropriate for the ecologically sensitive area adjacent to Mission Trails Regional Park and surrounding communities with nearby schools, hospitals, and homes. The project is inconsistent with the City of San Diego's LORS. It was denied by the City of San Diego Planning Commission, the San Diego City Council, and the City of Santee. There is massive bipartisan public opposition to Quail Brush.

The proposed project is also located within the East Elliott Multi Habitat Planning Area, part of San Diego's Multi Species Conservation Program (MSCP) open space area. The Mission Trails Regional Park Task Force opposes the siting of the power plant.

Thanks for your careful consideration and for all you do for the citizens of California,

Sincerely

Ann Funk
