**Subject:** WATSON COGENERATION STEAM AND ELECTRIC RELIABILITY PROJECT, DATA ADEQUACY RECOMMENDATION (09-AFC-01)

On March 19, 2009, the California Energy Commission received an Application for Certification (AFC) from the Watson Cogeneration Company. The Watson Cogeneration Steam and Electric Reliability Project (project) is a proposed expansion of a steam and electrical generating (cogeneration) facility that is located in the City of Carson in Los Angeles County. The project site is located within the boundary of the existing Watson Cogeneration Facility, which is a 21.7-acre area and is part of a larger parcel containing the BP Carson Refinery. The existing Watson Cogeneration Facility was licensed by the Commission in 1986 (85-AFC-1).

The project complements the existing cogeneration facility which has four General Electric (GE) 7EA combustion turbine generators (CTG), four heat recovery steam generators (HRSG) and two steam turbine generators (STG). In operation since 1988, the existing cogeneration facility is owned by Watson Cogeneration Company (Watson) and operated by BP West Coast Products, LLC – BP Carson Refinery. Watson is a joint partnership between subsidiaries of BP America and Edison Mission Energy. Since the project consists of adding a fifth CTG/HRSG to the existing configuration, it is also referred to as the “fifth train.” This fifth train would increase the existing capacity of the 385-megawatt (MW) Watson Cogeneration Facility by approximately 85 MW to a total output of 470 MW.

Staff has completed its data adequacy review of the AFC and has determined that it does not meet all the requirements listed in Title 20, section 1704, and Division 2, Chapter 5, Appendix B of the California Code of Regulations for the 12-month process. Therefore, we recommend that the Energy Commission find the AFC inadequate and adopt the attached list of deficiencies. Of the 23 technical disciplines reviewed, we believe the information contained in the AFC is deficient in nine areas which are: Air Quality, Biological Resources, Land Use, Power Plant Reliability, Socioeconomics, Traffic and Transportation, Transmission System Design (Engineering), Visual Resources, and Water Resources.

Attached is a summary table and data adequacy worksheets for all technical disciplines. The worksheets for the aforementioned sections identify the additional information that we believe is necessary to fulfill the AFC data adequacy requirements. At the Energy Commission’s business meeting on April 22, 2009, I will recommend that the Energy Commission adopt the list of deficiencies and not accept the AFC until the additional information specified in the data adequacy worksheets is supplied. If you have any questions, please call Alan Solomon, staff’s Project Manager, at (916) 653-8236.

Appendix B (g) (7) (A) (vi)	Capacities, existing and expected use levels, and planned expansion of utilities (gas, water and waste) and public services, including fire protection, law enforcement, emergency response, medical facilities, other assessment districts, and school districts. For projects outside metropolitan areas with a population of 500,000 or more, information for each school district shall include current enrollment and yearly expected enrollment by grade level groupings, excluding project-related changes for the duration of the project schedule.	Section 5.10.1.3 Public Services and Utilities, pages 5.10-23 to 5.10-28.	Yes	
Appendix B (g) (7) (B)	A discussion of the socioeconomic impacts caused by the construction and operation of the project (note year of estimate, model, if used, and appropriate sources), including:			
Appendix B (g) (7) (B) (i)	An estimate of the number of workers to be employed each month by craft during construction, and for operations, an estimate of the number of permanent operations workers during a year;	Table 5.10-16 Labor Personnel Requirements by Month, page 5.10-31. Section 5.10.2 Environmental Consequences, Project Operation, page 5.10-30.	Yes	
Appendix B (g) (7) (B) (ii)	An estimate of the percentage of non-local workers who will relocate to the project area to work on the project;	Section 5.10.2.3 Effects to Population and Housing, page 5.10-32.	Yes	
Appendix B (g) (7) (B) (iii)	An estimate of the potential population increase caused directly and indirectly by the project;	Section 5.10.2.3 Effects to Population and Housing, pages 5.10-32 to 5.10-33.	No	Please provide an estimate of the potential population increase caused indirectly by the project.
