**APPLICATION FOR CERTIFICATION  
FOR THE *WATSON COGENERATION  
STEAM AND ELECTRICITY RELIABILITY  
PROJECT***

**Docket No. 09-AFC-1**

**REVISED  
COMMITTEE SCHEDULING ORDER**

On November 2, 2009, the Committee for the Application for Certification (AFC) for the Watson Cogeneration Steam and Electricity Reliability Project requested the parties in this case comment on a tentative revised and extended schedule. The Committee has determined that the 12-month schedule is infeasible given the current backlog of Staff's analyses, the anticipated delays due to the fast-track solar projects. Applicant, Commission staff, and California Unions for Reliable Energy (CURE) submitted comments.

The attached Revised Committee Schedule is based on Staff's proposed schedule submitted on November 9, 2009, and reflects Staff's best estimates of the impacts that fast-track renewable energy projects will have on the schedule of this case.

We may modify the schedule at any time upon either our own motion or that of a party. [Cal. Code Regs., tit. 20, § 1709(c).] Please note that the schedule requires periodic status reports to determine whether case development is progressing satisfactorily, and to bring potential schedule delays or other relevant matters to our attention.

Dated December 14, 2009, at Sacramento, California.
