Mr. Christopher Meyer
Compliance Project Manager
California Energy Commission
1516 Ninth Street
Sacramento, CA 95814

Subject: Gateway Generating Station (Docket 00-AFC-1C)
Response to Data Requests #8

Dear Mr. Meyer:

On February 13, 2007, Pacific Gas and Electric Company (PG&E) submitted its responses to the California Energy Commission's Staff Data Requests 1-8 related to its petition to amend the license for the Gateway Generating Station (GGS) project. In that response, PG&E indicated it would submit a Drainage, Erosion, and Sedimentation Control Plan (DESCP) for the GGS project, as requested under Data Request #8, under separate cover. An original plus two copies of the DESCPC are attached for docketing purposes.

If you have any questions regarding this submittal, please contact me at (916) 780-1171 or Jerry Salamy at (916) 286-0207.

Sincerely,

Andrea Grenier

Andrea Grenier
GGS Compliance Manager
