STATE OF CALIFORNIA  
ENERGY RESOURCES CONSERVATION  
AND DEVELOPMENT COMMISSION

In the Matter of:	)	Docket No. 01-AFC-24C
	)	
PALOMAR ENERGY CENTER	)	ORDER DISMISSING COMPLAINT
	)	
	)	re: Condition of Certification VIS-4

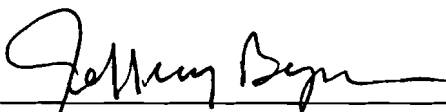

On December 7, 2007, Mark Rodriguez, a resident of the City of Escondido, filed a document entitled "Non-Compliance Complaint and Public Records Act Request – Palomar Energy Center" concerning Condition of Certification VIS-4. Staff have concluded that this document for the Palomar Energy Center fails to comply with the informational requirements for post-certification complaints under the California Code of Regulations, Title 20, § 1237(a). Nevertheless, staff initiated an investigation into the underlying allegations raised in the document, and has concluded that PEC is in compliance with this Condition. Staff therefore recommends that the complaint concerning Condition of Certification VIS-4 be dismissed as being statutorily insufficient, as well as for lack of merit.

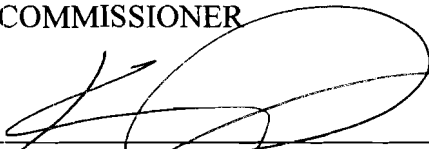

CONCLUSION AND ORDER

Having considered the complaint, the staff Response and Recommendations, and all other documents submitted in the instant matter, the committee finds that the complaint is statutorily insufficient, and that the allegations raised in the complaint lack merit. The committee hereby orders that the complaint be dismissed on each of those grounds.

IT IS SO ORDERED.

Date: March 6, 2008
