DATE **DEC 21 2010**
RECD. **DEC 21 2010**

Project Description: Palomar will install and operate an Emergency Engine: Cummins Model OSK60G, natural gas fired, 1945 Break Horsepower, lean burn engine to drive a 1,400 kilowatt generator. This emergency engine will keep certain systems in ready mode when electricity is unavailable from San Diego Gas and Electric Company.

On December 15, 2010, the California Energy Commission approved the above-described project pursuant to a regulatory program certified by the California Secretary of Resources under Section 21080.5 of the California Public Resources Code.

- 1. The project will not have a significant effect on the environment.
- 2. Mitigation measures were made a condition of approval of the project.
- 3. A statement of Overriding Considerations was not adopted for the project.

The Commission's docket files containing the final Commission Decision and other information regarding the project are available to the public at: California Energy Commission, 1516 9th Street, Sacramento, California, 95814. The final Decision and other information regarding the project are also available on the Commission's web site--www.energy.ca.gov.
