Dear Mr. Dobbs:

In accordance with the provisions of Title 20, California Code of Regulations, section 1769(a), California Energy Commission (Energy Commission) staff reviewed your petition dated August 3, 2011 requesting to add a 270 square-foot expansion to the existing 960 square-foot switch gear enclosure. Staff determined that the petition meets the criteria of section 1769(a)(2), and mailed the enclosed "Notice of Determination" to the Energy Commission's post-certification project mailing list on September 19, 2011.

Energy Commission staff did not receive any public comments regarding this requested project change within the 14-day public review period as specified in section 1769(a)(2). Therefore, your requested modification to the Palomar Energy Center (01-AFC-24C) is approved.
