Subject: **Watson Cogeneration Steam and Electric Reliability Project (09-AFC-1)
STATUS REPORT #3**

Pursuant to the Committee Scheduling Order dated December 14, 2009, the following is staff's Status Report #3 for the proposed Watson Cogeneration Steam and Electric Reliability (BP Watson) Project.

South Coast Air Quality Management District

The applicant is working with the South Coast Air Quality Management District (SCAQMD) to ensure that the application to the district is complete and is being reviewed. Until the application has finished being reviewed, the Preliminary Determination of Compliance (PDOC) cannot be prepared and completed.

The Air Quality section of the PSA cannot be completed until the PDOC is issued. The delay of the PDOC is creating a delay in the preparation of the Air Quality section of the PSA. SCAQMD has not indicated when they will issue the PDOC.

Preliminary Staff Assessment and Schedule

Per the Committee's Revised Scheduling Order and Project Schedule, an original target date for the publication of the PSA was April 15, 2010. Staff continues to work diligently on their respective technical areas regarding the Preliminary Staff Assessment (PSA).

BP Watson shares several key staff with the other natural-gas fired projects which are scheduled to publish in the same time frame of Spring 2010. In order to accommodate staff assignment conflicts and the critical component of the PDOC, the BP Watson PSA publication date will be 30 days after the PDOC has arrived.
