NOTICE OF RECEIPT
PETITION TO AMEND
THE ENERGY COMMISSION DECISION for the
PALOMAR ENERGY CENTER PROJECT (01-AFC-24C)

California Energy Commission

DOCKETED
01-AFC-24C

TN # 69939

MAR. 18 2013

On February 22, 2013, the San Diego Gas & Electric Company filed a petition with the California Energy Commission (Energy Commission) requesting to modify the Palomar Energy Center Project. The 500-megawatt project was certified by the Energy Commission on August 6, 2003, and began commercial operation on April 1, 2006. The facility is located in the City of Escondido, in San Diego County, California.

DESCRIPTION OF PROPOSED MODIFICATION

The modifications proposed in the petition would upgrade the advanced gas path technology for two existing General Electric Frame 7-FA combined-cycle combustion gas turbines, thereby improving efficiency and output without increasing emission limits, and would modify certain air quality conditions of certification in the Energy Commission Decision for consistency with the most recent San Diego County Air Pollution Control District air permits to operate.

ENERGY COMMISSION AMENDMENT REVIEW PROCEDURES

The purpose of the Energy Commission's review process is to assess the impacts of this proposal on environmental quality, public health and safety. The review process includes an evaluation of the consistency of the proposed changes with the Energy Commission's Decision and, if the project, as modified, will remain in compliance with applicable laws, ordinances, regulations, and standards (Title 20, Calif. Code of Regulations, section 1769). Energy Commission staff is currently analyzing the request and will publish an analysis in the near future. A public hearing for the purpose of approving, denying, or modifying the amendment proposal will be held at a regularly scheduled Energy Commission business meeting.

This Notice of Receipt is being mailed to interested parties and property owners adjacent to the project site who may want to participate in the amendment process.

The petition is available on the Energy Commission's website at <http://www.energy.ca.gov/sitingcases/palomar/compliance/>. The staff analysis, when published, will also be posted on the website.
