<u>COMPLIANCE PROCEEDING</u>)	OPERATIONAL CONTROL

Pursuant to California Code of Regulations, Title 20, Section 1769(b), Bicent (California) Malburg LLC ("BCM") hereby petitions the Commission for approval of a change of ownership and operational control of the Malburg Generating Station (the "Project"), Docket No. 01-AFC-25C.

The change of ownership reflects a transfer of the Project's assets and ownership from the City of Vernon, California, to BCM, effective April 10, 2008.

In response to Section 1769(b)(1)(A), BCM states that, in addition to the change in ownership, the operational control of the Project will change from the City of Vernon to BCM. The Project will be operated by Colorado Energy Management, LLC ("CEM"), an affiliate of BCM, pursuant to an agreement between CEM and BCM. CEM is an Exempt Wholesale Generator ("EWG") under the Public Utility Holding Company Act of 2005 that operates generating facilities owned by various entities, but has no involvement in sales of the output of those facilities. BCM also is an EWG.

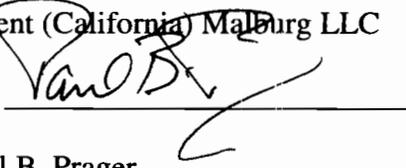

The name of the Project, Malburg Generating Station, will not change.

In response to Section 1769(b)(1)(B), BCM will be responsible for compliance with the Commission's conditions of certification for the Project.

In response to Section 1769(b)(1)(C), as the owner and operator of the Project, BCM understands the conditions of certification and agrees to comply with them. As an officer of BCM, I hereby attest, under penalty of perjury, under the laws of the State of California, that the contents of this Petition are truthful and accurate to the best of my knowledge and belief.
