Docket Number: 11-AFC-03

Approve Quail Brush Generation Project Project 11-AFC-03

Dear Commissioners:

I am a concerned citizen in support of the proposed Quail Brush Power Plant. I am concerned the California Energy Commission will accept, as true, the claims made by an organization known as Save Mission Trails. They purport to represent the residents of Santee, San Diego and Taxpayers of San Diego County. They represent less than a minority of the listed residents and taxpayers. They are an anti development and improvement group that oppose any and all improvements to the electrical grid and probably imagine that we gather electricity from the magnetic field surrounding us. The anti development group hide behind the title "Save Mission Trails" and represent that any project will destroy Mission Trails, when in fact Mission Trails will not be affected nor changed.

I believe the proposed location for the Quail Brush Generation Plant is ideal and will be a positive step in keeping up with the demands of the community and will not bestow any negativity to the area.

Please approve this suspension. I am for the development and construction of the Quail Brush Generation Project 11-AFC-03 in the East Elliott Planning Area.
