On October 21, 2008, Walnut Creek Energy, LLC, filed a petition with the California Energy Commission requesting to modify the Walnut Creek Energy Park Project. The 500-megawatt project was certified by the Energy Commission on February 27, 2008, and is expected to begin construction in the fall of 2009. The facility will be located in the City of Industry in Los Angeles County.

DESCRIPTION OF PROPOSED MODIFICATION

This Petition for Modification proposes to relocate several plant features within the existing property boundary. The changes include the relocation of the fuel gas compressor building and the cooling tower and the addition of a wastewater storage tank on the far west end of the site. Other minor modifications include the combination of the control building with the warehouse/maintenance building, the removal of a recycled chlorination tank, and the addition of five high-side electrical breakers.
