Walnut Creek Energy Park (05-AFC-2C)
Approval of Insignificant Change to Modify Height of Transmission Poles

Dear Victor:

In accordance with the provisions of Title 20, California Code of Regulations, section 1769(a), California Energy Commission (Energy Commission) staff reviewed your petition received on December 23, 2008, requesting to modify the height of the transmission poles at the Walnut Creek Energy Park project. Staff determined that the petition met the criteria of section 1769(a) (2), and mailed the enclosed "Notice of Insignificant Project Change" to the Energy Commission's post-certification project mailing list on January 27, 2009.

The Energy Commission did not receive any public comments regarding this requested project change within the 14-day public review period as specified in section 1769(a) (2). Therefore, your requested modification to the height of the transmission poles is approved.

If you have any questions, please call me at (916) 651-2072, or e-mail me at drundqui@energy.state.ca.us.

Sincerely,

Dale Rundquist
Compliance Project Manager
