In accordance with the provisions of Title 20, California Code of Regulations, section 1769(a), California Energy Commission (Energy Commission) staff reviewed your petition received on October 21, 2008, requesting to relocate several plant features within the existing property boundary. Staff determined that the petition met the criteria of section 1769(a) (2), and mailed the enclosed "Notice of Receipt" to the Energy Commission's post-certification project mailing list on April 8, 2009.

The Energy Commission did not receive any public comments regarding this requested project change within the 14-day public review period as specified in section 1769(a) (2). Therefore, your requested modification to relocate several plant features within the existing property boundary has been approved.
