Dockets

In behalf of CARE I respectfully request permission to Intervene in 06-AFC-5C with Financial Hardship. Please add me to the service list for this case.

CARE's interest is that the "two unlined wastewater surface impoundments (UWSI) located adjacent and south of the existing PEC plant footprint, mostly within the existing PEC construction laydown area" will act as an ecological sink as Dr. Smallwood described in his comments on the Blythe II power plant project 02-AFC-1 at number 1 at page 6
