**NOTICE OF RECEIPT**  
**PETITION TO AMEND**  
**THE ENERGY COMMISSION DECISION for the**  
**CANYON POWER PROJECT (07-AFC-9C)**

**DOCKET****07-AFC-9C**

DATE JUN 13 2012

RECD. JUN 13 2012

On May 8, 2012, the Southern California Public Power Authority filed a petition with the California Energy Commission (Energy Commission) requesting to modify the Canyon Power Project (CPP). The 200-megawatt project was certified by the Energy Commission on March 17, 2010, and began commercial operation on September 15, 2011. The facility is located in the City of Anaheim, in Orange County.

**DESCRIPTION OF PROPOSED MODIFICATION**

The modification proposed in the petition would increase the carbon monoxide (CO) startup limit set in Condition of Certification **AQ-2** from 6.3 pounds per hour (lb/hr) to 11.6 lb/hr. The change is needed to allow the operation of the CPP turbines in compliance with applicable air quality regulations and permits. The increase to the start up limit is not expected to result in an increase of the daily, monthly or annual CO emissions. The proposed CO startup limit is consistent with other similar peaking projects recently permitted by the Energy Commission and the South Coast Air Quality Management District (SCAQMD).

**ENERGY COMMISSION AMENDMENT REVIEW PROCEDURES**

The purpose of the Energy Commission's review process is to assess the impacts of this proposal on environmental quality, public health and safety. The review process includes an evaluation of the consistency of the proposed changes with the Energy Commission's Decision and, if the project, as modified, will remain in compliance with applicable laws, ordinances, regulations, and standards (Title 20, Calif. Code of Regulations, section 1769). Energy Commission staff is currently analyzing the request and will publish an analysis in the near future. A public hearing for the purpose of approving or denying the amendment proposal will be held at a regularly scheduled Energy Commission business meeting.

This Notice of Receipt is being mailed to interested parties and property owners adjacent to the project site who may want to participate in the amendment process.

The petition is available on the Energy Commission's website at <http://www.energy.ca.gov/sitingcases/canyon/compliance/index.html>. The staff analysis, when published, will also be posted on the website. If you would like to receive a hard copy or CD of the petition and/or staff's analysis, please complete the enclosed Information Request Form and return it to the address shown.
