STATE OF CALIFORNIA

**Energy Resources Conservation and
Development Commission**

In the Matter of:

Docket No. 08-AFC-13C

The Application for Certification for the
Calico Solar Project Amendment

SIERRA CLUB PETITION TO INTERVENE

Pursuant to sections 1207 and 1712 of Title 20 of the California Code of Regulations, the Sierra Club petitions to intervene in this proceeding. Section 1207(a) grants “any person” the right to file a petition to intervene which sets forth “the grounds for the intervention, the position and interest of the petitioner in the proceeding, the extent to which the petitioner desires to participate in the proceedings, and the name, address, and telephone number of the petitioner.” Section 1207(c) provides that the “presiding member may grant leave to intervene to any petitioner to the extent he deems reasonable and relevant....”

Sierra Club is one of the oldest conservation groups in the country with over 700,000 members nationally in sixty four chapters in all fifty states including the District of Columbia and Puerto Rico. Sierra Club participates in various energy dockets before public utility and energy commissions nationwide. One of Sierra Club’s top priorities is to help speed the country’s transition from an energy economy dependent on cheap fossil fuels to a robust clean energy economy based on renewables. We believe solar energy is

the cleanest, most abundant, renewable energy source available, particularly in the West. At the same time, Sierra Club is a long time protector of our public lands. We believe solar projects can and must be sited in an environmentally responsible way.

Sierra Club has an interest in ensuring that the preservation of important desert ecosystems is not needlessly sacrificed to meet our renewable energy goals. For this and future utility-scale solar projects to be acceptable in the Mojave desert, projects must be sited and configured on our public lands in a manner that fully considers both the requirements of a given project and the existing desert ecosystem. Sierra Club is concerned about this particular project's potentially significant impacts on biological and other natural resources. Sierra Club's participation would focus on finding solutions to avoid and/or reduce significant project-related impacts. Sierra Club's ultimate position in this proceeding will be based on the totality of the information developed for the Commission.

The Commission granted Sierra Club intervention in the initial siting proceeding for the Calico Solar Project, and Sierra Club participated extensively. Sierra Club wishes to participate fully in all phases of this proceeding. Filings should be served on Sierra Club at the address listed below.

For the foregoing reasons, Sierra Club respectfully requests that the Commission grant its petition to intervene in this proceeding, and allow Sierra Club to participate as a party.
