Re: MHCSO Board Meeting of March 10, 2010

Ladies and Gentlemen:

During the March 10, 2010, MHCSO Board of Directors meeting Director James Lamb stated, in reference to the developers of the Mariposa Energy Project ("Mariposa"), ". . . They didn't want us to be an intervener and they don't want us to file this, this resolution." at approximately 38 minutes and 24 seconds into the video recording.

This statement is incorrect. Mariposa informed the California Energy Commission Hearing Officer, Mr. Ken Celli, on Tuesday, December 1, 2009, that Mariposa had no objection to the Petition to Intervene from Mountain House, filed by Mr. Morgan Groover. In addition, Mariposa has informed the Energy Commission that it did not object to the intervention of Tracy resident, Mr. Robert Sarvey, on October 22, 2009, or the intervention of Mountain House resident, Mr. Rajesh Dighe on February 2, 2010. Copies of the emails documenting these correspondences to the Hearing Officer are attached for your information.

We continue to welcome the participation of Mountain House and other interested parties in the Energy Commission licensing process and we remain available to respond to any additional questions or concerns you may have.

# Mariposa Energy, LLC

Best regards,

Bo Buchynsky

Executive Director

**Subject:** RE: Mariposa Energy Project - Petition to Intervene - Nov. 25, 2009

Hearing Officer Ken Celli, 

Mariposa Energy has no objection to the Petition to Intervene from Mountain House. We welcome the opportunity to cooperatively work with Mountain House in the AFC process. Representatives of Mariposa Energy have previously met with the Staff and Board of Directors of Mountain House and we continue to update them about the Mariposa Energy Project.

I checked with my client.

The Applicant does not intend to oppose Mr. Sarvey's petition to intervene.

Also, on a purely procedural note - do you have a tentative date for issuing the scheduling order and will the schedule reflect the delay in issuing the Staff's data requests? Per the Staff's proposed schedule, to which the Applicant agreed, first round data requests were due September 30. As of today, they have not been issued.

If you would like us to further meet and confer, brief or discuss the schedule in light of these delays, we would be happy to do so.

Thank you.

**Subject:** RE: Rajesh Dighe's Petition to Intervene in MariposaEnergy Project(MEP)

The Applicant does not intend to oppose the Petition to Intervene by Rajesh Dighe.

I note that the Petition is defective in one respect - it does not state the extent to which the Petitioner desires to participate, although this information is required by Commission rules. The Commission generally requires this information of all Petitions. We leave it to the discretion of the Committee whether the Petition should be supplemented.
