Subject: **Mariposa Energy Project (09-AFC-3)**
Project Status Report #10

Pursuant to the Committee Scheduling Order dated October 12, 2010, the following is staff's Status Report #10 for the proposed Mariposa Energy Project (MEP).

Staff Assessment Publication

Staff continues to work on the staff assessment and is making every effort to publish this document in a timely manner and as close to the October 12th Mariposa Committee schedule as possible. Staff realizes that the original target date was October 20, 2010.

Staff have previously indicated that the ARRA funded projects have been a priority for the Energy Commission and have required a great deal of Energy Commission resources. While meeting this ARRA obligation, staff is also committed to ensuring that the gas-fired power plants are processed in a timely manner given the constraints that staff is currently working under.

Staff is completing the edits and review of the final sections and will publish the Staff Assessment by November 10th at the latest. Staff will do everything it can to publish earlier if possible.

Staff does request that the Mariposa Committee allow the staff documents to be served electronically. Parties also wanting a hard copy may request it in addition to the electronic copy. This is in an effort to reduce the amount of paper used and time spent duplicating paper documents in this proceeding.

Bay Area Air Quality Management District

The Bay Area Air Quality Management District (BAAQMD) has not indicated when a Final Determination of Compliance (FDOC) will be issued. The FDOC will need to be incorporated into staff's analysis for the Supplemental Staff Assessment. Staff is hopeful that the FDOC will be published by mid November
