Mr. Hoffman:

I am a Mountain House resident and am opposed to the Mariposa Power Plant. This project will have a detrimental impact on the health and well-being of Mountain House residents, particularly its children.

The proposed decision posted in April does not adequately consider or address the concerns expressed by the large neighboring community of Mountain House, which is only 2.5 miles east of the proposed site. Alternative, sources of energy, such as wind or solar should be more carefully considered. Just because this project allegedly meets the minimum requirements set by law does not mean it should be allowed to proceed. Would you consider the pollution generated from a non-renewable resource power plant "insignificant" if you or your children had to inhale that pollution every time you walked out your front door? On behalf of myself and my family I urge you to not allow the Mariposa Power Plant in its current state to proceed.

Warm regards,

Amber M. Ziegler
