CONFIRMATION OF SOIL & WATER-6 COMPLIANCE**

Dear Ms. Owens:

California Energy Commission (Energy Commission) Staff has received your letter dated August 21, 2012, requesting to withdraw the portion of your petition seeking modifications to Condition of Certification **Soil & Water-6**. This letter serves as confirmation that Energy Commission Staff finds that GenOn is in compliance with the requirements of **Soil & Water-6** and that the actions you outline in your letter meet the requirements to maintain the facilities necessary to obtain brackish groundwater as a backup water supply for the project.

It was a pleasure working with you and your staff on this amendment. If you have any questions, please contact me at (916) 654-4745.

Sincerely,

A handwritten signature in cursive script that reads "Christine Stora".
