AUTHORIZATION TO BEGIN CONSTRUCTION**

Dear Mr. Kehoe:

The Energy Commission staff has completed its review of the preconstruction submittals for the GWF Tracy Combined Cycle Power Plant Project and has determined that the project complies with all conditions of certification that are required to be satisfied prior to the start of construction for the expansion of the power plant and related facilities.

In addition, required plan approvals and/or permits from Bureau Veritas, the Chief Building Official (CBO), have been secured.

Unrestricted construction may commence as of Monday, January 10, 2011.

If you have any questions, please call me at (916) 654-4842 or e-mail me at CMDavis@energy.state.ca.us.

Sincerely,
