**SUBJECT: GENESIS SOLAR ENERGY PROJECT (09-AFC-8C)  
AUTHORIZATION TO STAKE PROJECT SITE**

Dear Mr. Dunn:

The Energy Commission staff is currently in the process of completing its review of the pre-construction requirements for the Genesis Solar Energy Project and has determined that staking the perimeter of the project site in preparation for installing a fence in January or February 2011 may commence as of November 29, 2010.

Biological monitors shall accompany the crew during all staking activities.

Review of the pre-construction submittals will continue and you will be given a full notice to proceed for all other activities when all pre-construction submittals are approved as required by the conditions of certification. The Energy Commission will continue to work closely with NextEra Energy Resources to ensure conformance with all conditions of certification as written in the Energy Commission's Final Decision. Lack of conformance with any of the conditions of certification may result in suspension of construction activities.

If you have any questions, please call me at (916) 651-8891 or e-mail me at [CMDavis@energy.state.ca.us](mailto:CMDavis@energy.state.ca.us).

Sincerely,

A handwritten signature in black ink, appearing to read "Chris Davis".
