and Development Commission

In the Matter of:  
Docket No. 79-AFC-4C  
(P800-80-013)  
Order No. 97-1203-1(a)  
COMMISSION ORDER  
APPROVING EXTENSION OF  
REDUCED MONITORING DURING  
SUSPENDED OPERATIONS

The California Department of Water Resources (DWR) submitted to the California Energy Commission (Energy Commission) a request for a three year extension of Energy Commission Order 93-0426-02 (approved on April 26, 1993) which modified and reduced environmental monitoring during suspension of operations for a five year period. The order also stated that if DWR wished to extend the period of suspended operations, they must submit a request to the Compliance Project Manager six months prior to the end of the five year suspension period (the end of the period would be April 26, 1998).

STAFF RECOMMENDATION

Based on the findings below, staff recommend approval of the three year extension of modified and reduced monitoring during suspended operations. All provisions of Energy Commission Order 93-0426-02 will remain in effect.

- The proposed extension is consistent with the overall intent of the conditions adopted in the Bottle Rock AFC Commission Decision and with Commission Order 93-0426-02.
- There will be no new or additional significant environmental impacts associated with the proposed extension.
- The facilities will remain in compliance with all applicable laws, ordinances, regulations, and standards.

CONCLUSION AND ORDER

The California Energy Commission hereby adopts staff's recommendation and findings as its own and orders that Energy Commission Order 93-0426-02 be extended for a period of three years beginning on April 26, 1998.

Date: December 3, 1997
