NOTICE OF RECEIPT
PETITION TO AMEND THE ENERGY COMMISSION DECISION for the
CALPINE KING CITY COGEN PROJECT
(85-AFC-5C)

On April 14, Calpine King City Cogen, LLC filed a petition with the California Energy Commission requesting to modify the King City Cogen (KCC) Project. The 130-megawatt project was certified by the Energy Commission in 1987 and began commercial operation on April 28, 1989. The facility is located in the City of King City, in the County of Monterey.

DESCRIPTION OF PROPOSED MODIFICATION

The petition proposes to change Conditions of Certification (COCs) related to air quality that are a result of recent revisions to permits from the Monterey Bay Unified Air Pollution Control District (MBUAPCD) and to allow for performance testing as required by federal and state mandates and the Western Electricity Coordinating Council (WECC).

The proposed changes include new Conditions of Certification for the gas turbine and operational and auxiliary boilers exempting them from hourly and annual emission limits during mandated testing activities. A proposal to delete a Condition of Certification to allow multiple startups, shutdowns and operation at low loads for tuning purposes has also been requested.

ENERGY COMMISSION AMENDMENT REVIEW PROCEDURES

The purpose of the Energy Commission's review process is to assess the impacts of this proposal on environmental quality, public health and safety. The review process includes an evaluation of the consistency of the proposed changes with the Energy Commission's Decision and if the project, as modified, will remain in compliance with applicable laws, ordinances, regulations, and standards (Title 20, Calif. Code of Regulations, section 1769). Energy Commission staff is currently analyzing the request and will publish an analysis in the near future. A public hearing for the purpose of approving or denying the amendment proposal will subsequently be held at a regularly scheduled Energy Commission business meeting.

This Notice of Receipt is being mailed to property owners adjacent to the project site and interested parties who may want to participate in the amendment process. If you wish to be removed from the KCC project mailing list, please check the box on the enclosed form and return it to the address shown.

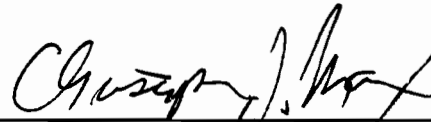

The petition is available on the Energy Commission's website at: http://www.energy.ca.gov/sitingcases_pre-1999/index.html. The staff analysis (when published), will also be posted on the website. If you would like to receive a hard copy or CD of the petition and/or staff's analysis, please complete the enclosed Information Request Form and return it to the address shown.

If you have any comments or questions, please contact Christine Stora at (916) 654-4745, or by fax to (916) 654-3882, or via e-mail at: cstora@energy.state.ca.us within 14 days of the date of this notice.

For further information on how to participate in this proceeding, please contact the Energy Commission Public Adviser's Office, at (916) 654-4489, or toll free in California at (800) 822-6228, or by e-mail at publicadviser@energy.state.ca.us. News media inquiries should be directed to the Energy Commission Media Office at (916) 654-4989, or by e-mail at mediaoffice@energy.state.ca.us.
