RE: Notification to participate in the review of the Oakley Generating Station (OGS) - formally Contra Costa Generating Station (CCGS)

Mr. Douglas,

This letter is to notify the CEC that the City of Oakley appreciates the opportunity to respond to the CEC's specific questions asked in the August 5, 2009 and November 25, 2009 correspondence. The City has been diligently working on your requests and is still interested in commenting on the Project. City staff will require more time to analyze the net impact of the Project on the community and to respond definitively to the questions regarding the questions regarding Land Use, Visual Resource, Noise Abatement, Traffic and Transportation. Without limitation, each of these matters is of potential concern to the City. It is our intention to comply with your request and, as was discussed with you by phone, the City will be submitting comments and recommendations to the CEC after the first scheduled workshop.

The City appreciates this opportunity and fully expects to provide CEC with informed input and otherwise meet the intent and spirit of the Assessment process. Thank you again for your time and consideration.

Sincerely,

Bryan H. Montgomery
City Manager
