Attorneys for the CALIFORNIA  
UNIONS FOR RELIABLE ENERGY

California Unions for Reliable Energy (“CURE”) submits this status report pursuant to the Committee’s December 17, 2009 Scheduling Order.

CURE participated in the January 15<sup>th</sup> data response and issues resolution workshop and the January 20<sup>th</sup> workshop regarding waste management and the Project’s potentially significant impacts on water, soil, air quality and biological resources. CURE continues to evaluate the Application for Certification, Staff’s data requests and the Applicant’s responses to data requests. CURE is also currently reviewing the Applicant’s proposed soil sampling plan and supplemental air quality and public health data and analyses submitted on January 26, 2010 and February 2, 2010, respectively. CURE anticipates reviewing the Applicant’s supplemental groundwater modeling data and impacts analyses.

CURE is working to identify whether further data requests are needed to clarify the proposed Project, potentially significant impacts and mitigation measures, and compliance with the Warren-Alquist Act, including LORS. CURE anticipates participating in future workshops in this proceeding.

Dated: February 3, 2010

Respectfully submitted,
